## 34,464 TIN CANS

THE COVEY BOYS BROUGHT 23 DOZEN CANS IN THEIR AUTO.

## WE'RE ALL CLEAN NOW

Club Women Cheerfully Paid \$28.94 for That Pile of Rubbish on the Square.

Maryville alleys and back yards were rid of 34,464 cans by 11 o'clock Saturday noon.

Tin Can day has come and gone, and was the opening event of the cleanup campaign inaugurated by the women of Maryville. It was a big success, and the women feel that it is due to the efforts of the children of our city and to Mayor Robey and other of our city officials.

The Covey boys, sons of N. C. Covey, won the blue ribbon, having brought in 224 dozen cans. They had the assistance of Mr. Covey, who gave them the use of his automobile to convey the cans to the court house square, where they were counted. The Allen boys came next with 172 dozen, and Ray Butcher third with 149 dozen.

The Tin Can day movement was started by the Twentieth Century club, loyally and ably assisted by the P. E. O. chapter, the M. I. Circle, the Woodmen Circle and the Mothers' Circle. The committee in charge of making all arrangements and directing the work were Mrs. E. G. Orear, Mrs. George P. Bellows, Mrs. C. C. Corwin, Mrs. M. M. Denning and Mrs. W. A. Rickenbrode. This committee met at 9 o'clock Saturday morning at the Great-Henry drug store, where they paid the boys and girls on presentation of their tickets signed by Mayor Robey stating the number of cans they had brought, for which they were paid one cent a dozen. They were assisted by Mrs. J. C. Allender of the P. E. O. chapter, Mrs. Wm. Everhart of the Mothers' Circle, Mrs. M. E. Denning of the M. I. Circle and Mrs. J. B. Morrison.

The sum of \$28.94 was paid for the 34,464 cans.

It was an odd parade that wended its way to the square this morning from every direction. Boys of all ages and sizes, black and white, hauling wagons and carts and wheelbarrows of all sorts, hurried back and forth through the streets and alleys, looking very business-like and as though a great deal rested on their shoulders. They began as early as 4 o'clock this morning to gather up the old tin things that have rendered premises about town unsightly, and everything left out of doors last night in the back yards had disappeared by the time the owners were up. Joseph Jackson, Jr., was awakened about 4 o'clock by a squabble in his alley as to who should have his tin cans, and Arch Frank could not find the feed bucket for his horse. He forgot last night and left it by his tin can pile.

The names of all who brought in tin cans follow: Albert Skelley, Ralph Moore, Forrest Brewster, Vilas Pope, J. Edmonson, Irvin Edmonson, Edward Tindall, Paul Smith, Tommy Redfield, Harry Palmer, Wilson Siler, Goff Crawford, Vilas Awalt, LaVerne Robey, James Rigney, Albert Nealy, Paul Smith, Donald Davenport, Owen McIntyre, Carl Young, Annie Borchers, Arthur Pierce, Helen Rose Crawford, Julian A. Prvin, Charles Yehle, Clyde Keegan, Wilbur Allen, Vilas Awalt, Paul Robey, Frank Childress, John Price, Paul Coleman, Albert Kelley, Henry Reynolds, Lawrence Robey, Eugene Coleman, Henry Buhler, Charles Schauf, Wesley Hagan, John Thompson, Vale Howland, Ray Edmonston, Paul Clayton, Ray Butcher, Dean Campbell, James Helpley, Wilbur Carbutt, Roland Carnutt, J. R. Robey, Dewey Covey, J. Garrett, Theodore Yount, William Helpley, Forrest Hutchison, Dan Palmer, Thelma Ferris, Frank Martin, Harold Allen, Cecil Smith, Henry Sawyers, Russell Robey, Dale Howland, Anna May Emery, Tillie Maze, Raymond Barry, Walter Smith, Glen Moon, Ralph LaBr, James Robinson, Edwin Harris, Kenneth Lightfoot, Perry Culver, Frank Kehn, Arthur Pearce, Donald William Deets, Forrest Edwards, Gilbert Greenelsh, F. F. Ferris, George Lee Flemming, Ben Howard, Wilbur Allen, Herbert Vance and George Gorman.

Mrs. James Byrens, who makes her home with her daughter, Mrs. Aaron Felix, went to Clyde Saturday to spend a few days with her daughter, Mrs. Matt Sturm.

George P. Shoptaugh, the Elmo banker, was a city visitor Friday.

## SPECIAL ELECTION

TO VOTE ON NEW CITY HALL ON TUESDAY, JUNE 6.

## WATER QUESTION UP

At City Council Meeting Friday Night—Appointments and Other Business Transacted.

City attorney—W. A. Blagg. City physician—Dr. A. T. Fisher. City engineer—F. L. Flint. Street commissioner—Eph Tilton. City weighmaster—A. M. Campbell. City sexton—W. A. Shanks. Night policeman—Clyde Avitt. Fire driver—E. C. Moberly. Chief fire department—Burt Rowley. Assistant chief fire department—Fred Dicks. Firemen—Lou Denny, Joe Pulliam, James Keegan, Carl Rife, Hugh Armstrong.

The above are the city officers appointed at last night's council meeting for the coming year and approved by the council. The mayor announced that with one or two exceptions there were no other applicants and the old officers were reappointed. After some discussion by the council the salary of the street commissioner was fixed at \$600 per year and that of the city engineer at \$3 per day when in the service of the city.

### City Hall Election June 6.

Quite a number of daring citizens braved the dangers of the crumbling old ruins known as the city hall last night to attend the meeting of the city council. Some of them remained late enough to see plans submitted for the building of a new combination city hall, police court and fire department, which Architect Searcy estimated could be built at a cost of \$12,811. This estimate, of course, did not include furnishings. The council looked favorably upon the proposition, and a motion to hurry the matter along to the people was passed, and the first Tuesday in June was fixed as the date for voting upon a proposition to issue bonds to the amount of \$15,000 for the purpose of erecting a new city hall building upon the present site of the old one.

### Minor Matters Passed On.

C. B. Yeo was granted permission to operate a pool hall on North Main street.

The report of the city marshal showed \$12 collected from fines during the month of April.

The public library reported \$21.80 received during the month.

The city weighmaster reported receipts of \$19.65.

Collector Grems reported receipts from taxes, etc., of \$693.41.

It was reported that several citizens had paid vehicle license on vehicles not included in the recently revised ordinance, and a motion was carried to refund to all who had overpaid the amounts paid in excess of the requirements of the present ordinance.

Miscellaneous bills were allowed. Sidewalks were ordered in on East Third street.

### Airdome Ordinance Proposed.

Elmer Fraser and S. J. DeArmond were present to protest against the erection and operation of the proposed airdome on East Third street. They presented ordinances already drawn making it necessary to secure the consent of property owners before conducting any such place of amusement within 250 feet of residences. The complainants allege that the performances will keep them awake at night and be generally objectionable to them. The council was unwilling to assume responsibility in the matter without legal advice, and the city attorney was sent for. Mr. Blagg, after reading the proposed ordinances, announced that he would look up the authorities in the case and report at a meeting to be held Monday night, when the matter will be further considered.

### Sidewalks Ordered for Seventh Street.

Dr. Dean, J. K. Sawyers and others were present to urge the laying of walks on West Seventh street. The street has been opened as an entrance to the Normal grounds from the north part of the city, and there is already a large amount of traffic through it, but from Walnut street west there are no walks. At a recent meeting of the board of regents of the Normal an order was made to provide a roadway and walk from the Normal to Seventh street whenever the city should put the street in passable condition. The walk is wanted on the south side of the street. J. T. Hayes asked that the

walk be built on the north side of Walnut street, because the walk will run for a long distance along the property owned by Mrs. Buford Farris, who is now in Montana. Mr. Hayes stated that she was unable to lay the walk, and if it is done the city must do it. He thought if they would agree to build on the north side he could make some arrangements, if given time, whereby it could be taken care of. S. G. Gilliam said when the street was put through Mr. Farris did not get any damages, and it was understood that he was to be compensated by giving a street along the west side of the property from the Normal grounds, and he thought this would be done when the board of regents understood the matter fully. J. K. Sawyers called attention to some walks that had been ordered down in former administrations on West Seventh street that have not yet been put in. After some discussion the street commissioner was instructed to proceed to have walks put in all the way from Main west on the south side of Seventh, and to let contracts for the same.

### Water Committee Reported.

S. G. Gilliam and E. C. Curfman made a verbal report for the committee appointed by the Commercial club to investigate the water situation. Mr. Gilliam stated that they had gone into the matter with considerable pains and care. Taking the valuation of \$74,000 as a basis, they had reached the conclusion that the Water company is now earning about 6 per cent on the investment. The physical condition of the plant, however, is bad and the service inadequate, and it will be necessary to make improvements which the company estimate will cost about \$45,000. Most of this expenditure, the committee thought, would be necessary. If it is necessary and there were no compensating circumstances, it was, of course, easy to see that the present water rates would be insufficient to render a reasonable income on the investment when the improvements are made. On the other hand they believed improved machinery, new boilers, etc., would be operated at much less expense than the antiquated outfit now in use. Just how much difference this would make they were unable to say. After viewing the subject in all its bearings the committee felt that they were unable to render definite advice without the services of a competent engineer who was familiar with water plants, and they recommended that the city employ one to make a thorough investigation. This will be considered by the council at an adjourned meeting to be held Monday night.

### How City Could Buy Plant.

Mr. Gilliam stated that in case the city could not make a satisfactory arrangement with the Water company on a franchise basis there were two plans by which the city might buy and operate the plant. One would be for a straight purchase, the city to issue bonds to pay for it. These bonds, he thought, could be floated at about 4 1/2 per cent. The other plan is provided for in a recent law which permits a city to buy such plants and issue in payment therefor 6 per cent notes. The owners of the Water company would be required to take these notes in payment, and would hold a lien on the plant until it was paid for. Under this law a commission of competent business men is to be appointed, who are to control it. Under this plan the city assumes no risk beyond keeping up the plant, although the notes would bear a higher rate of interest than the bonds mentioned in the first plan. Mr. Gilliam did not make it as a recommendation, but he intimated that his personal conclusions would favor municipal ownership of the plant.

## "DRAG THE ROADS"

SLOGAN OF COMMITTEE NAMED AT GOOD ROADS MEETING.

## ANOTHER MEETING MAY 16

Commercial Club Will Probably Appoint a Committee to Co-Operate in the Matter.

The good roads meeting held at the Commercial club rooms Friday afternoon was the first meeting to discuss the proposed "Saints Highway," that will pass through Nodaway county William Gerlac of Sharpesburg, Ia., was present and told of the plans and purposes, and that an organization should be formed to have charge of the work in this county.

The following committee was appointed to see the farmers over the county to join the organization, the membership dues being \$1, and to have an agreement that after each rain they should drag the roads on the proposed route through the county, which is not as yet fully determined upon:

C. E. Donlin, A. E. Beinart and E. C. Wolfers, Sr., Hopkins; J. W. Wiley, J. K. L. Neal and C. J. McNeal, Pickering; Dr. D. A. Pollard, John A. Fields and Dr. J. A. Larrabee, Barnard; J. J. Hall, W. B. Limerick and W. G. Hine, Savannah; W. A. Hopkins and Dr. Hoshor, Rosendale; L. E. Lewis, N. Long and John Palmer, Sheridan; H. O. Gray, N. Morgan and J. K. Klaas, Parnell; J. S. Casteel, D. Wells and Emmett Bishop, Ravenwood; Grant Munn, L. A. Nigh and B. H. Cooper, Gaynor City; John Sparks, I. V. Moore and J. P. Snowden, Orrsburg.

The committee will meet in Maryville next Thursday afternoon, at which time the proposed route will probably be selected. Quite a fight is made by Pickering and Hopkins for the road to come through their towns, and it is probable that this will be the route. Parnell and Ravenwood are making a fight to get the road on the east side of the county.

On May 16 a meeting of the people interested in the movement in Nodaway and Andrew counties will be held in Maryville and a permanent organization will be formed.

The Maryville Commercial club will have their regular monthly luncheon on Tuesday evening, at which time the club will take some action on the appointing of committees to have charge of the work for Maryville.

### Will Come to Maryville.

John Graham, a prosperous farmer of the Clyde neighborhood, has concluded to locate in Maryville an account of school advantages for his children. He has purchased a residence lot on West First street, adjoining the residence property of Attorney Ellis Cook, and will build a modern residence. Mr. Graham is a brother of Mrs. T. J. Parle of this city.

W. J. Hazelwood of McComb, Ill., will be the Sunday guest of his cousin, Mrs. Smith Casteel, and her daughter, Miss Hazel Ritchie.

Miss Agatha Kirch went to Clyde Saturday to visit over Sunday with her cousin, Miss Lottie Kroetch.

## The Weather

Fair tonight and Sunday, becoming unsettled Sunday night; rising temperature.

## The beginning of eye troubles

Usually come very gradually. Often for years there are indications that the sight is failing. It's a great mistake not to heed these first signs. Those who get glasses at the first indication of something wrong miss a lot of suffering. But no matter in what shape your eyes are in, there is always relief at our optical department.

## THE LITTLE SCALLYWAG IS HIS MOTHER'S JOY

(Winifred Black in Kansas City Post.)

"Whizz," said the Trolley.

"Whew," whistled the man on the back platform.

"Oh, my goodness gracious me,"

breathed the fat woman on the back seat.

And all the passengers on the Woodland-Holmes car this morning turned and gazed in thunder struck amazement out of the window. Yes, there he was, the little scallywag—round and roly-poly—and rosy and laughing—and not a stitch to his back but a little knit shirt and a pair of flapping elastic.

"Whee," he yipped, as the car went by. "Whee," and he waved his fat hand in a gay gesture of hail and farewell—and the cold rain drizzled around his fat little gumps of feet and the cold wind whimpers and lifted the curls of his yellow hair.

"Whee," said the little boy—"Whee," and up the street he went like a flash of joyous lightning.

The little girl in the seat in front of me was almost shocked to death.

"Why, mamma, isn't it awful?" And mamma, who was laughing so hard she could scarcely speak, straightened her face down at once and said soberly, "Terrible, terrible; I wonder what his poor mother will do when she finds him."

And on into the rain and the mist and the shivery cold ran the little 2-year-old—as warm as toast and as light of heart as a summer day.

Dear Little Two-Year-Old—if I hadn't seen a woman dash out of a house just around the corner and start frantically you-ward right then, I would have stopped the car and gone and lugged you back to clothes and care and responsibility and dull imprisonment—and probably a good spanking—no matter how hard you had struggled to escape.

I wonder if I would have been doing you a favor after all. Did she whip you so very hard, that anxious and horrified mother? I hope not—oh, how hard I hope not. Little Two-Year-Old, you did look so gay and so full of the love of living—your elastic dangled in the breeze with such a gay and galliard air—they were like the epurs of some young knight errant who kisses his mother good-bye and goes lightly forth into the romance and the mystery of the world to write down joy and make it his bosom comrade forevermore.

What were you looking for—you in your little shirt and garters, tell me Little Two-Year-Old?

Had the black kitten with the white paws escaped and did you want to rescue her from unknown and dreaded dangers?

Was it the puppy who lured you forth—false fleeing friend that he is—with his gambolings and his barking at nothing and his whole artful program of pretending that the world is just a great playground for you and for him?

He got you into trouble the other day—snatching the clothes off the line and cajoling you into helping him in his fiendish work. Wasn't it you I saw prancing around in a fleeting glimpse of a back yard, robbed in some one's traveling garments?

Say, Little Two-Year-Old, aren't you the rogue who hides behind that old tree in front of your house and dashes out and nearly scares the passing cyclists to death?

Isn't it you who snatched the bread from the dog the other day and gave it to the cat, and laughed to see the things that happened?

Telephone—I'll warrant they don't dare to keep one in the house with you, or if they do it must be fastened near the ceiling, where you can't reach it, even if you stretch to the top of your ridiculous tippy-toes to do it.

Matches—don't you even think to mention them. No, I know you can't talk yet, very well, but oh, what a lot you can say anyhow. Where are you now this very minute, oh, valiant Knight of the Flapping Garter?

Standing in the corner weeping bitterly, with one eye on the window and

another on the door that stands so temptingly ajar?

Are you put to bed in ignominious surrender, well spanked and warmly wrapped?

Wherever you are, here's looking at you and here's wishing you the whole of the world of light laughter some day—when you get out again.

Again?

Of course—again—where is the mere woman who can even hope to chain down that dauntless spirit?

You'll escape again—and yet again and every time you do you'll bid the gray old world such a light good morning that no one will have the heart to censure you and if you go on being the kind of boy you are now, you little daring, good humored, willful, fearless rogue, you, I hope I'll live to help the rest of the world take off our hats to you, for you're the kind of boy who will some day amount to something somewhere.

Whisper—the truth now—on your heart and honor—weren't you just a little teeny weensy bit chilly when that wind blew this morning? No?

Well, here's my heart and my hand, Little Run-Away. I'd give more for the nail on your pudgiest finger than I would for the whole body of all the little stay-at-homes in the world—there—and when your mother tells you you are going to break her heart with worry over you, don't you believe it, she doesn't mean worry—she means pride, but don't you tell her I said so.

## YES, LETS HAVE A "DANDELION DAY"

Why not have a dandelion day? That's a question suggested by Judge Ira K. Alderman. "We have had tin can days and other days with considerable success, now why not set apart a day and try to exterminate the dandelion? They are taking the town. Everywhere you see the dandelion, and unless vigorous measures are taken it is only a question of time until the grass is smothered out. The dandelion should not be neglected or ignored. Unless dug out by the roots or cut down before it goes to seed it will spread rapidly. It is now in bloom, and in a short time the seeds will be spreading everywhere. I see many once beautiful lawns that are now almost given over to the dandelion and other noxious weeds."

The judge is right. Let's all make war on the dandelion. This is a yellow peril right in our midst that will give us more trouble than the Japanese. Why not set apart a day, let every citizen enlist and march in solid phalanx against the dandelion?

## GOODWIN SUES FOR A DIVORCE SATURDAY

A suit for divorce for the June term of court was filed in the circuit clerk's office Saturday by Shinabargar, Blagg & Ellison, attorneys for Rosa M. Goodwin against Lewis E. Goodwin. The petition states that they were married in Montgomery county on March 2, 1902, and that they lived together until August 1, 1910. The petition further states that the defendant offered such indignities as to render the plaintiff's condition in life intolerable, and that he failed and refused to support and furnish her the necessities of life, and compelled plaintiff to seek employment away from home in order to secure the necessities of life.

## ABE R. EVERSOLE DIED IN OHIO HOME

D. R. Eversole of this city received word Saturday morning of the death of his cousin, Abe R. Eversole, at New Industry, O., where he moved some twenty years ago from his home, east of Maryville, in the Mt. Airy neighborhood. He was one of the well known farmers in this section and was a regular correspondent for the old Nodaway Democrat and Maryville Republican, and his items from the Mt. Airy neighborhood attracted wide attention because of their "human interest" qualities. He was one of the prominent workers in the Mt. Airy Methodist church. He and his family lived on the farm now occupied by Mrs. M. Kane, M. R. Eversole having sold it to her husband, the late John Kane. The following clipping is from the New Industry News-Democrat:

Abraham R. Eversole, 53, died of tonsillitis Wednesday in his home, near North Industry. He had been sick about two weeks.

He is survived by his widow and five children, William, Harrison, Earl, Myrtle and Gladys.

Funeral services will be held in Melschneider's church Friday morning at 10:30 o'clock and interment will be in Melschneider's cemetery.

Mr. Eversole was one of the best known farmers in Pike township, and was active in church and other circles of that section. For many years he was the correspondent in his home district for a number of newspapers, including the News-Democrat, devoting himself to this work most conscientiously.—News-Democrat.

## ORDERS ROAD VACATED— APPEAL TO CIRCUIT COURT

The road case that was before the county court Friday for the vacation of a road about three miles north of the city took up most of the day for the court, and was not finished before evening. The court, after hearing the testimony and the arguments of the attorneys, ordered the road vacated.

An appeal will be taken to the circuit court by those opposed to vacating the road.

The court ordered and decreed that the public road from Prather avenue to the Normal grounds be opened by not later than November, 1911. The road will be known as Storm avenue. The report of the commissioners appointed to assess damages and benefits was filed with the court at the February term.

The court also ordered the widening of the road from north of Prather avenue, the work to be done not later than November, 1911.

M. G. Tate was appointed tax attorney and J. Arthur Wray, recorder, appointed as his deputies Miss Clara B. Neal and Miss Nellie Wray, which appointments were approved by the court.

The court adjourned Saturday morning.

Miss Augusta Eckhouse of Conception was in Maryville shopping Saturday.

## WILSON SPEAKS IN KANSAS CITY

Governor of New Jersey Predicts  
New Reform Era.

### NEITHER PARTY HAS MONOPOLY

Both Republican and Democratic Organizations Already Well Represented in Work—Declares Judges Should Not Be Recalled.

Kansas City, May 6.—Woodrow Wilson, governor of New Jersey, in a speech before the Knife and Fork club of this city, declared that a new political era, promising much for the welfare of the nation, is now upon the American people. This movement is one of reform, marked by a process of restoration, rather than that of revolution, he said.

The work of reforming present conditions is confined to neither political party, the speaker said, both parties being well represented in the efforts at reform as well as in the constructive tactics of reactionaries.

The Democratic party is not so closely allied with the reactionary forces, "the interests," as is the Republican party, said the governor, and therefore, he said, the Democratic party is better able to serve the people in the "process of restoration."

Great care should be taken in the selection of party leaders, the speaker urged. The processes of the present reform movement are fundamentally conservative. Therefore excitement should be avoided and demagogues silenced.

The New Jersey executive said the initiative and referendum in the field of legislation and the recall in the field of administration are intended to restore representative government. But the recall should not apply to judges, who neither make nor administer the laws, but only interpret them.

The presence of Governor Herbert S. Hadley of Missouri added interest to the occasion. Both state executives were referred to during the evening as "presidential possibilities in 1912."

Governor Wilson's speech here was the first to be delivered during his western tour.

### TWO McNAMARAS ARRAIGNED

Given Until June 1 to Enter Pleas on Murder Charge.

Los Angeles, Cal., May 6.—John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, was formally arraigned before Judge Walter Bordwell of the superior court on charges of murder and dynamiting, and his brother, James B. McNamara, was arraigned on a charge of murder, all in connection with the explosion which wrecked the Los Angeles Times on Oct. 1 last and killed twenty-one men.

Ortle E. McNamagal, alleged to have made the confession implicating the McNamaras, was not arraigned and is not expected to make any appearance in court until the trial begins. The day for the McNamaras to plead was fixed for June 1.

Assistant District Attorney Ford read all the nineteen indictments, charging them with the murder of employees of the Times plant. Accused with the brothers in the indictments were William Caplan, alleged to have been an assistant of James B. McNamara in the explosion, and four others, one a woman, who were masked by the names of "John Doe," "Richard Roe," "John Stiles" and "Jane Doe."

The accusation was followed by a list of the scores of witnesses examined by the grand jurors in the weeks following the Times disaster and with the late addition of Ortle E. McNamagal, the alleged confessed dynamiter.

### SAYS DIETZ FIRED SHOTS

Member of Posse Testifies in Trial of Defender of Cameron Dam.

Hayward, Wis., May 6.—In the trial of John Dietz, charged with the murder of Oscar Harp, Theodore Surdson of Rice Lake, was the first witness. He was standing at the edge of the woods at Cameron dam during the exchange of shots between inmates of the Dietz cabin and officers who laid siege to Dietz's stronghold.

Surdson testified he saw John Dietz come out of the cabin and fire four shots while Leslie was running in during the fusillade.

Roland Ackley, a deputy who was with Harp, Pomeroy and McWhorter during the siege of the Dietz cabin, said he heard three reports from the barn and saw three deputies get up and run, leaving a dark object behind them.

### Labor Official Is Arrested.

Danville, Ill., May 6.—Jack Welch, secretary of the local miners' union, was arrested on a charge of forgery. It is alleged that he forged the names of officers of the union to miners' cards. More than 300 of these cards are said to have been counterfeited and sold to inexperienced miners.

### Two Old Pictures Seized.

New York, May 6.—Carlo Di Pollogio, said to be an Italian nobleman, was arrested by United States Marshal Henkel on the charge of having smuggled into this country two old paintings, "The Holy Father," by Del Barto, and the "Vision of St. Hubert."

## PRESIDENT DIAZ MAY RESIGN SOON

Announcement Within Short Time  
Regarded as Certainty.

### "SLIGHT ILLNESS" IS SUDDEN.

Report That Insurrectos Are Ready to Assault Monterey and Saltillo. Many Foreigners Are Leaving Country by Way of Vera Cruz.

Mexico City, May 6.—The resignation of Porfirio Diaz as president of Mexico within a short time is regarded here as a certainty. Should the announcement be made today it would cause no surprise. There appears little doubt that President Diaz, recognizing the seriousness of the situation and responding to the popular demand, will retire when order is restored. Statements were issued by the foreign office saying the reception to the Chilean minister today and the banquet to him had been postponed. The reason for this was given as "the slight illness of the president."

Since the statement was issued General Diaz is known to have been out riding in his automobile.

### Halt in Peace Negotiations.

El Paso, May 6.—It was learned that the government peace envoy did not transmit to the Mexican government General Madero's suggestion concerning the resignation of President Diaz. Judge Carbajal is said to have advised the rebel commissioners that he had no instructions from the government to receive or discuss the resignation of the president.

Efforts were being made to resume the conferences of the peace commissioners to determine whether a basis of agreement could be effected despite the ultimatum.

Senator Oscar Braniff, one of the go-betweens in the negotiations told press representatives that it was he who had conveyed to Madero assurances of President Diaz's intention to resign. He declared that President Diaz, in a conversation with him, had said he felt obligated to the majority of Mexican voters, who had elected him, but the moment he felt convinced that the majority of the Mexican people no longer wanted him as president he would resign.

Senator Braniff asserted that he had personally ventured the opinion to Madero that President Diaz would resign immediately after peace was restored.

### Ready to Renew War.

The commissioners are confident of arranging the other conditions of peace within forty-eight hours if the Diaz question is once settled.

On the interpretation of the Mexican president's reply depends the fate of Mexico, rebel leaders declared. Should an unfavorable reply be received they are prepared to break off peace negotiations and continue the argument with arms. They have no alternative, they say, for telegrams have been pouring into the headquarters of General Madero from revolutionary chieftains in all parts of Mexico warning him that if he consents to any arrangement which will continue General Diaz in power they will renounce his leadership and continue the rebellion independently.

Reports also have been received at the Madero camp of the mobilization of large bodies of rebel troops, prepared to march on the City of Mexico if necessary.

### National Holiday in Mexico.

Mexico City, May 6.—For the first time in many years two important features were omitted from the celebration of the anniversary of the capture of Puebla by Ignacio Zaragoza. There was no military parade and General Diaz did not make the customary distribution of gold coins to the veterans who help to repulse the French on May 5, 1862. The president did not appear at any public functions. Sunday calm marked the anniversary of the battle, which had been heralded as the date set for an attack on the capital by revolutionists and the forced resignation of President Diaz. There was no disorder in any quarter.

### Uneasiness Among Foreigners.

Considerable uneasiness among foreigners is noticeable. A new cause of apprehension on the part of these is the reported impending assault by the rebels on Monterey and Saltillo, capital of the state of Coahuila, on the Mexican Northern railway, which would mean the cutting off of all communication to the north, with the possibility that railway traffic to the south might also be interrupted.

While few believe that an assault on Mexico City would be successful, the possibility of it being besieged is causing many foreigners to leave. The Ward line steamer which sailed from Vera Cruz carried many refugees, most of them women.

### Train Fired on at Puebla.

It was reported at the railway headquarters that the rebels fired on the passenger train which was approaching Puebla. No one was killed, but a few persons were wounded. The safe in the express car was broken open and 4,000 pesos taken. Later a freight running in the opposite direction was held up by a burning bridge.

The belief is growing that the rebels at large will not be satisfied with any peace terms which do not provide for the resignation of President Diaz.

## AGENT FOR SEXTONE DRESS FORM

Mrs. L. Mahan of Bedford, Ia., was in Maryville Thursday and Friday to make arrangements for securing a place to demonstrate the Sexton dress form. The idea of the dress form, which enables any woman to fit her own dresses on an exact copy of her own form, originated with Mrs. Sexton of Fairfax. A cast of plaster, after the nature of plaster paris, is made over any woman's figure by the demonstrator, that extends from the neck to below the hips, and includes the arms. After the plaster sets it is cut down the back and removed, as a waist would be taken off, and placed on a frame, where it is always ready for the use of its owner. It is durable, will last years and will go through the fitting ordeal without so much as a sigh.

### Do Ghosts Haunt Swamps?

No, never. It's foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at the Great-Henry Drug Co.

## FIRST FEW GRAY HAIRS

### MAY BE POSTPONED.

A feeling of sadness accompanies the discovery of the first gray hairs, which, unfortunately, are looked upon as the heralds of advancing age. Gray hairs, however, are not always an indication of advancing age, for many people have gray hairs quite early in life. Of course, it is unnatural and indicates that there is something wrong with the individual and that Nature needs assistance in correcting the trouble. The same is true of hair that is constantly falling out and becoming thinner every day. If everything is right with Nature, the hair, even in comparatively elderly people, should be long, thick and glossy, without even a streak of gray.

The ideal assistant to Nature in restoring and preserving the hair is Wyeth's Sage and Sulphur Hair Remedy, a clean and wholesome dressing for daily use. It not only removes dandruff but strengthens weak, thin and falling hair and promotes its growth. A few applications will restore faded or gray hair to its natural color.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by

Koch Pharmacy.

Mrs. Robert Crail went to St. Joseph Saturday morning to meet her mother, Mrs. J. C. Scott, of Junction City, Kan., who will visit her for a time.

Following the pleas of not guilty, the prosecutor set the trials for week after next.

### Excitement is Subsiding.

## TRADE REVIEW FOR THE WEEK

Brighter Outlook for Wheat Crop  
Makes Better Feeling.

## VOLUME OF TRADE STILL SLOW

Fundamental Conditions Are Favorable, but Enterprises Await Removal of Uncertainties and More Faith in the Future.

New York, May 6.—Dun's Review of Trade says: The brighter outlook for the wheat crop is responsible for a better feeling in business, but the volume of trade, while necessarily large, is nevertheless slow, halting and without enthusiasm. Taken in the aggregate, especially in iron and steel and dry goods, consumption is below producing capacity and concessions in prices fail to produce activity. Fundamental conditions are favorable, but enterprise continues to wait for the removal of uncertainties and for that leadership which is born of faith in the future. The export trade is more vigorous than the domestic, because manufacturers, no longer finding the home market sufficient, are seeking outlets abroad. General dullness prevails in the pig iron market and advices from Pittsburgh indicate new business in finished lines and on smaller scale. Railroad buying continues spasmodic and one mill has closed down for May, but in the structural division conditions are more satisfactory. Curtailment is the order in cotton goods, while woollens are affected by tariff agitation. The shoe trade is fair, but not up to high water mark. The mail order houses complain of reduced orders. The retail trade does not hold the improvement resulting from better weather.
